New Young at Heart Strength Training Classes Opening in Modesto!

Young at Heart Strength Training focuses on the full body and works on strength, balance and flexibility. It is an evidence based, practice tested intervention that has been shown to reduce the likelihood of falling.

The class uses resistance tubes for upper body exercises and the overall goal is to keep the participants functioning and moving each day.

Currently we are offering 14 community classes to choose from with a new Modesto class coming soon!

If you would like more information on the new class coming to Modesto or to find the class nearest you, please respond to this email or call Healthy Aging Association at (209) 525-4670.

Thank you for helping us to continue serving older adults throughout the community.
